portal knights loot box

Great game with some nice twists as far as I can see after playing only around 2 hours. Buy it.. ! :). the best game ever made. This VN was really something, It has some alright visuals, the voice acting I found great tbh, I laughed at there and now. I didn't get the story at first but then as I gradually kept reading, the story got really interesting and emotional. There is 4 endings, I'd say this game would take 2 hours to finish depending on how fast you read it, I've gotten all 4 endings and #1 ending I'd say was the best cause I got what I wanted.. Step 1: Buy car while you have 5 heat.

Step 2: Attempt to get into car.

Step 3: Run away from car as it was shot and is now on fire.

LATER

Buy car with no heat, drive it perfectly, then accidentally hit government guy, he shoots car and it blows up!

Word of advice, only buy when 0 heat and want to drive.. I really like this game, fun and addictive it makes you concentrate, talk about multi-tasking! The game play and graphics are great, you can make it as hard or easy as you like - great fun and value.. I like it, however I was shocked when i found out this game is from 2013. I thought this was a 2000 / 2005 game... Nonetheless it was quite cheap and that makes up for it. Fun game to pass time and finally a simple 'nam era jet / helicopter game.. Trash. Still way better than No Man's Sky.

i found this game to be okay it has quite a bit to work out such as the ai wich right now is insaine by the time i got my first habitat done and destroyed my first enemy space station i was swarmed by nanobot clouds so yea please fix the ai and the fact that forsome reason i was flying and then i got stoped bt norhing but all in all it looks like its goign to be a really amazing game.. A simple and easy to use program. It is not the best animation software in the universe, it has its flaws, but it's totally worth the price.. I think this is a very interesting experience. However I think it needs more polish. The graphics while interesting are bland at times. The Voices are just terrible... The subtitles are annoying and need an option to remove them. The world could use more life in it. The controls at least on Vive have no strafe. A video of an Oculus play through I watched showed that Touch controllers do strafe which I find odd. The music is Incredible and is the real star here!. BONKA
